

**AESOP FOR YOUR SCHOOL BOARD**

STREAMLINE YOUR  
**SCHOOL BOARD PROCESSES**

ACHIEVE MORE EFFICIENCY WITH AESOP

**Automated Substitute Placement & Absence Management**  
*Serving thousands of school boards worldwide*

# AESOP FEATURES AND BENEFITS

Aesop automates substitute placement and streamlines absence management. By handling time-consuming and paper-intensive processes online, Aesop is helping school boards to better access data, increase communication, and improve overall efficiency.

**AUTOMATED SUB-CALLING** Aesop lets your teachers register absences online or over the phone, and then your substitutes can search for and accept those jobs via phone and web. As Software-as-a-Service (SaaS), Aesop does not require any hardware, software, or phone lines at the school.

**REPORT WRITER** Creating custom reports in Aesop is as easy as dragging and dropping the fields that you want. Pulling data into reports is easy, the options are endless, and reports can be exported into formats like Excel and HTML. Visit [www.aesopeducation.com/reporting](http://www.aesopeducation.com/reporting) to learn more.

**ABSENCE APPROVALS** Reduce paperwork and save hours by automating your absence approvals! With Aesop, approvals can be handled completely electronically, including multiple levels of approval and alerts to personnel.

**INTEGRATION ABILITIES** Aesop's Report Writer allows school boards to quickly create custom extract files, so they can set up exactly what data they want transferred between Aesop and their payroll and other applications. Visit [www.aesopeducation.com/integrations](http://www.aesopeducation.com/integrations) to learn more.

**SKILL MATCHING** You can assign specific skills to teachers and substitutes, create school board and school-level preference lists, and even let teachers pick their "favorite five" substitutes.

**BALANCE TRACKING** Aesop tracks employee absence reasons and will automatically subtract each absence from their balance. You can even have Aesop enforce the limits you set, and employees can easily view their balances online.

**LIVE CHAT** One of our customers' favorite features is Aesop instant live chat! Hop on an online chat and you can very quickly talk to any one of our qualified, courteous, and helpful Aesop experts.

**To learn more about how Aesop can optimize your school board processes, please contact me and I will be glad to set up a demo or a call with you!**
